

Link Group 2017 Annual General Meeting

1 November 2017

Important notice

This presentation has been prepared by Link Administration Holdings Limited (**Company**) together with its related bodies corporate (**Link Group**). The material contained in this presentation is intended to be general background information on the Link Group and its activities.

The information is supplied in summary form and is therefore not necessarily complete. It should be read in conjunction with the Company's other periodic and continuous disclosure announcements filed with the Australian Securities Exchange, and in particular, the Company's full year results for the year ended 30 June 2017. It is not intended that it be relied upon as advice to investors or potential investors, who should consider seeking independent professional advice depending upon their specific investment objectives, financial situation or particular needs. The material contained in this presentation may include information derived from publicly available sources that have not been independently verified. No representation or warranty is made as to the accuracy, completeness or reliability of the information.

All amounts are in Australian Dollars unless otherwise indicated.

Unless otherwise noted, financial information in this presentation is based on A-IFRS. Link Group uses certain measures to manage and report on its business that are not recognised under Australian Accounting Standards or IFRS. These measures are collectively referred to in this presentation as 'non-IFRS financial measures' under Regulatory Guide 230 'Disclosing non-IFRS financial information' published by ASIC. Management uses these non-IFRS financial measures to evaluate the performance and profitability of the overall business and the Company believes that they are useful for investors to understand the Company's financial condition and results of operations. This information is also important for comparative purposes with the use of those measures in the Company's IPO Prospectus dated 30 September 2015. Non-IFRS measures are defined on slide 38 of the 2017 full year results presentation. The principal non-IFRS financial measures that are referred to in this presentation are Operating EBITDA and Operating EBITDA margin. Management uses Operating EBITDA to evaluate the operating performance of the business and each operating segment prior to the impact of significant items, the non-cash impact of depreciation and amortisation and interest and tax charges, which are significantly impacted by the historical capital structure and historical tax position of Link Group. Management uses Operating EBITDA to evaluate the cash generation potential of the business because it does not include significant items or the non-cash charges for depreciation and amortisation. However, the Company believes that it should not be considered in isolation or as an alternative to net operating free cash flow. Other non-IFRS financial measures used in the presentation include Recurring Revenue, gross revenue, EBITDA, EBITA, EBIT, NPATA before significant items, working capital, capital expenditure, net operating free cash flow, net operating free cash flow conversion ratio and net debt. Significant items comprise business combination costs, bargain purchase gain and gain on consolidation, integration costs, IT business transformation and client migration costs. Unless otherwise specified those non-IFRS financial measures have not been subject to audit or review in accordance with Australian Accounting Standards.

Forward-looking statements are statements about matters that are not historical facts. Forward-looking statements appear in a number of places in this presentation and include statements regarding Link Group's intent, belief or current expectations with respect to business and operations, market conditions, results of operations and financial condition, including, without limitation, future loan loss provisions, financial support to certain borrowers, indicative drivers, forecasted economic indicators and performance metric outcomes.

This presentation contains words such as 'will', 'may', 'expect', 'indicative', 'intend', 'seek', 'would', 'should', 'could', 'continue', 'plan', 'probability', 'risk', 'forecast', 'likely', 'estimate', 'anticipate', 'believe', or similar words to identify forward-looking statements. These forward-looking statements reflect Link Group's current views with respect to future events and are subject to change, certain risks, uncertainties and assumptions which are, in many instances, beyond the control of Link Group, and have been made based upon Link Group's expectations and beliefs concerning future developments and their potential effect upon us. There can be no assurance that future developments will be in accordance with Link Group's expectations or that the effect of future developments on Link Group will be those anticipated. Actual results could differ materially from those which Link Group expects, depending on the outcome of various factors. Factors that may impact on the forward-looking statements made include, but are not limited to, general economic conditions in Australia; exchange rates; competition in the markets in which Link Group will operate and the inherent regulatory risks in the businesses of Link Group.

When relying on forward-looking statements to make decisions with respect to us, investors and others should carefully consider such factors and other uncertainties and events. Link Group is under no obligation to update any forward-looking statements contained in this presentation, where as a result of new information, future events or otherwise, after the date of this presentation.

Continuing to execute on Link Group's growth strategy

The integration program secures medium term growth, with continued outsourcing and innovation to drive further growth

Link Group's growth strategy is focused on five major drivers

1 Growth through further penetration of attractive industries

- Continue to explore prospective opportunities

Fund Administration:

RBF (Tasmanian public sector fund)

Corporate Markets:

Woolworths (registry), Autosports (IPO)

IDDS:

Rexel (Link Digicom)
ESS Super, ME Bank (Empirics)

2 Growth through product and service innovation

- Launched new innovative IR app for Corporate Market clients
- Launched new employer app for superfunds (awarded "Financial Services app of the year" at MAX Awards)

3 Growth through client, product and regional expansions

- Expanded capability through the acquisition of Adviser Network – a digital and advisor support business for Superannuation funds
- Acquisition of CAS will significantly extend Link Group's business profile and geographic scale

4 Realising integration benefits

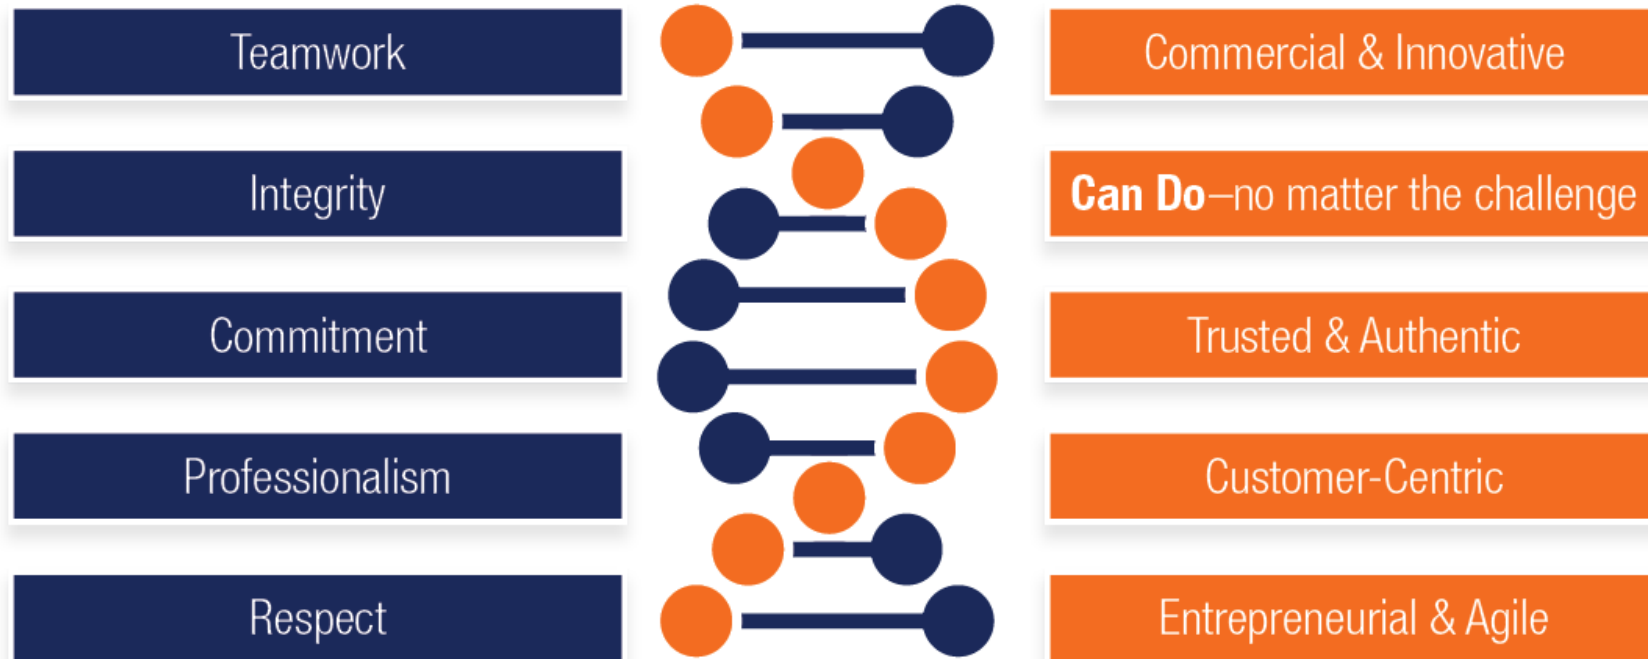

- Superpartners migration activity complete
- Archiving of historic data well advanced
- Decommissioning of legacy systems substantially progressed
- On track to achieve targeted synergies

5 Identifying adjacent market opportunities

- Continue to actively assess a range of corporate and other actionable targets
- Increased ownership of PEXA to 19.7%

Our culture and values

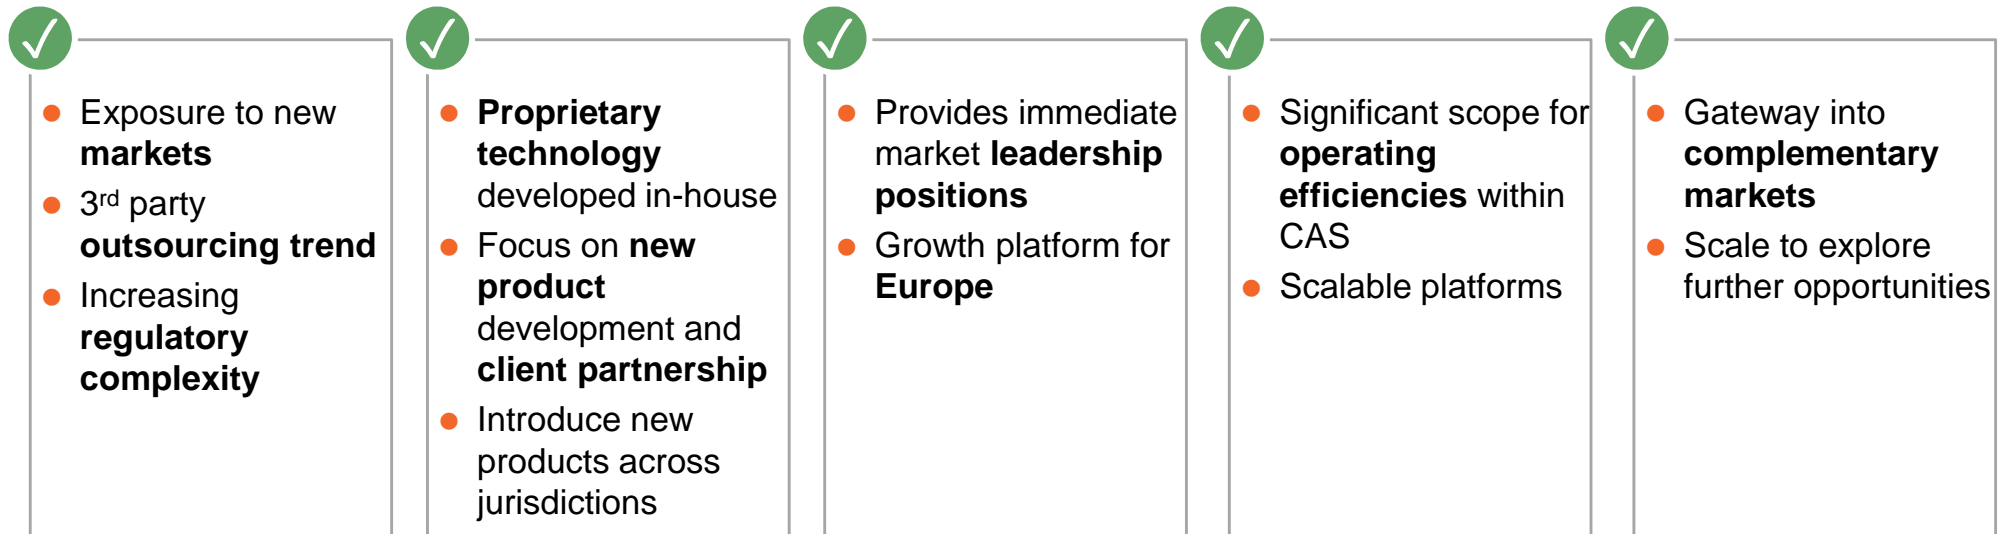

Our culture is like our DNA, constantly responding to and changing to the environment that surrounds it, while holding true to our core values

Link Group received an Australian Business Award for Employer of Choice 2017. The award recognises Link Group for creating a working environment in which our people can reach their full potential.

CAS acquisition

Strong strategic fit, aligned with Link Group's growth strategy

Outlook

Well positioned for future earnings growth

Operations

- > Good organic pipeline of opportunities across the business
- > REST contract extended to 31 December 2017 – long term contract in advanced stages of negotiation
- > Kinetic Super has signed a successor fund transfer with Sunsuper – financial impact from June quarter of FY2018
- > Continued earnings momentum through ongoing disciplined cost management
- > Superpartners' contracts rebased in March 2017, following the completion of the migrations in CY2016

CAS acquisition

- > Regulatory approvals obtained with completion scheduled for Friday, 3 November 2017
- > Separation and integration planning progressing well

Integration activities

- > Superpartners integration is progressing well
- > As the business is currently structured, Link Group remains on target to return Group margins to 34% by FY2020
- > The value of the remaining Superpartners integration synergies is ~A\$45 million including substantial savings from the decommissioning of legacy IT systems. The costs to achieve these are expected to be approximately A\$8–15 million
- > The value of the CAS integration efficiencies is ~£15 million per annum. The costs to achieve these are expected to be approximately ~£23 million

Capital management

- > Anticipated leverage of ~2.7x pro forma Operating EBITDA provides flexibility for further growth
